

As a Christian, K-Love gives me the spiritual lift I need on a daily basis. When you consider the trash that contemporary music stations play, K-Love is a peaceful reminder there is something else worth listening to. And an added prayer by their staff is always welcome. With God being taken away from everything because it's a violation of someone's rights, please consider the one's who do profess His name and listen to K-Love. If more people listened to K-Love, this world would be a better place. Please consider what detriment allowing LPFM would cause if it knocks K-Love out.
